Athens 9 December 2010

INFORMATIVE NOTE

ADEDY will realize **24hour strike on Wednesday 15 December 2010** expressing our opposition against the disastrous policy of Momerandum and organizing our resistance against the anti-labour policies imposed by the Hellenic government and the Troika.

They want to impose more cuts on the incomes, the pensions, the insurance rights and they want to downgrade the public services and the public goods. They want to turn over the labour relations, abolish the collective agreements, they want to merge or cut out public service units.

We claim to be changed the policy which serves the creditors and the big capital, we claim the reversal of Memorandum and anti-labour policies, we demand the right to the employment with decent pays, the social security, the permanent labour relations, the right to the life.

We call all the workers to demonstrate on 15 December at 11.00 am to Field of Mars (Pedion Areos).

All together we can stop them, all together we can win.

FROM THE EXECUTIVE COMMITTEE OF ADEDY
