. Program : Preparation of the december forum in Brussels

After an introduction on the political situation with the ongoing elections results in France and those to come on a European scale, we confirmed our will to hold our December meeting of Brussels and to enlarge as much as possible our network to new partners. Brussels represents a stage toward the European Forum Social in September 2008 in Sweden..

The greek delegation has once again proposed to organise a public services forum in spring 2008, that seems difficult before the september's FSE for which we must prepare our presence.

The Convention of Local Communities “Out of GATS” also announced its convention in 2008, in a place that is not yet determined.
