Your struggle is our struggle!

Dear colleagues,

It is with great dismay that I have learned of the storming and devastation of your union building by right-wing extremist groups. Maurizio rightly described this attack as an act of fascist violence and an attack on the constitution. The events leave me stunned and angry at the same time and show once again how necessary it is to stand up against racism, fascism and destructive violence.

With ver.di – The United Services Union we take a stand for solidarity and justice. We stand up against racism and get involved in anti-racist and anti-fascist alliances in all workplaces and administrations, in public places and in the political arena. For us there is no question that democratic engagement must not end at national borders. That is why we of course declare our solidarity with your demonstration at the Piazza San Giovanni on Saturday. Your struggle is our struggle.

Kein Fußball dem Faschismus – Don't give fascism an inch!

In solidarity,

Frank Werneke
