Dear Serena, Dear FP-CGIL,

The reports of the violent attacks on trade unionists and the CGIL office in Rome has left us with anger and dismay. Speaking on behalf of more than one million Swedish public service workers and our six unions, we strongly condemn all attacks on unions and the fundamentals of democracy. Fascism and right-wing extremist terror have no place in our societies.

The union movement is built upon solidarity and an attack on one of us is an attack on all. We stand with our Italian unionist friends.
