Brussels, 9 December 2022

Dear Colleagues

EPSU sends its solidarity greetings to your federations for the strike action in the INL and ANPAL agencies on 12 December. Workers in these agencies are playing a key role in protecting workers' rights and improving their employment opportunities and it is important that they benefit from the same benefits as provided to other workers in the Ministry of Labour.

There are many actions taking place in Italy and across Europe in the current period and strongly supported and successful strike action will be a boost to all EPSU affiliates fighting to defend their members' pay and conditions.

In solidarity

Jan Willem Goudriaan  
EPSU General Secretary
