Brussels, 9 December 2022

Dear Colleagues

EPSU sends its solidarity greetings to your federations for the week of action 12-16 December calling on the government to revise its budget plans for 2023.

We fully support your demands for the need for increases in funding across the public services, including financial support covering the private and non-profit health and care sectors. Urgent action is needed across these and other public services to tackle staffing shortages, boost recruitment and training and ensure that funds are available for negotiating the renewal of collective agreements across the public services.

In solidarity

Jan Willem Goudriaan
EPSU General Secretary
