Brussels, 7 December 2022

Dear Colleagues

EPSU sends its solidarity greetings to your federations for the demonstration of doctors, veterinarians and health managers on 15 December calling for increased funding for health services with more jobs and better pay and conditions for workers.

There are many actions taking place in Italy and across Europe in the current period and strongly supported and successful protest will contribute to the momentum behind the efforts of all EPSU affiliates fighting to defend health and care services and their members' pay and conditions.

In solidarity

Jan Willem Goudriaan  
EPSU General Secretary
