Dear Colleagues

I am writing to send solidarity greetings for your coordinated strike against the AIOP private hospital employers' organization tomorrow (27 September).

It is appalling that this organization refuses to negotiate with your federations and instead works with an unrepresentative trade union and provides poor pay and conditions to health workers.

EPSU also supports your actions to put pressure on the regional health authorities that funds AIOP hospitals. They should use their influence to end the social dumping practiced by AIOP and ensure that their procurement processes support legitimate collective bargaining and decent pay and conditions for health workers in the private sector.

Success to your strike action and mobilisations and please keep us informed of the outcome.

In solidarity

Jan Willem Goudriaan
EPSU General Secretary
