In support of your forthcoming strikes in Nov-Dec 2023

We fully support your strike actions to be held in different regions during the coming weeks, starting in Rome on 17 November.

We stand with you in your fight for sufficient investment in quality public services, adequate staffing in all workplaces, better wages, workplace safety, and against precariousness.

The strikes and manifestations are a good opportunity to raise people's awareness of the situation for public service workers and your demands in your trade union platforms.

In solidarity,
Kommunal, the Swedish Municipal Workers' Union

Malin Ragnegård
President
